

# Foreign Born Individuals & Rental Rates Percentage

## Winston-Salem & Greensboro-Raleigh Metro Area, NC, 2019

Significant percentages of foreign born individuals within this metropolitan area, can be attributed to Forsyth (Winston-Salem), Guilford (Greensboro), and Wake (Raleigh) Counties are Sanctuary Counties. Which have protection in place for immigrants, and restrict the actions of U.S Immigration and Customs Enforcement (I.C.E.).

Immigrants who travel to the U.S whether it be legally or illegally tend to be fleeing their previous government or are trying to make a better life for their families. Due to this many come to the U.S with not much to their name financially resulting in many having to rent for the first couple years or more, resulting in much higher rental rates in these communities compared to others.
